ABOUT 2019 EVENT

The 16th edition of Makkah International Dental Conference and Exhibition took place from 4 to 6 April 2019 and was held under the patronage of His Royal Highness Prince Khalid Al Faisal, Advisor to the Custodian of the Two Holy Mosques and Governor of Makkah Region.

The event, jointly organized by the Saudi Society of Restorative Dentistry and INDEX Conferences & Exhibitions, is an annual professional event dedicated to dental professionals (Maxillofacial surgeons, Cosmetic Dentists, General Dentists, Pediatric Dentists, Endodontists and Periodontists) dental industry stakeholders, dental associations and dedicated future professionals (universities and dental schools).

In 2019, the conference was held under the theme of “From Dental Science to Clinical Practice” and gathered :

TESTIMONIALS

Prof. Abdullah R. Al Shammery
Chairman, Riyadh Elm University

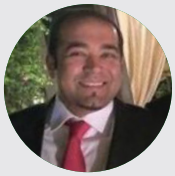

Makkah Dental succeeded in bringing together all the significant technologies, players in the field. Makkah dental gives us very good communication & networking opportunities.

Prof. Khalil Aleisa
President, Saudi Dental Society

I strongly recommend Makkah Dental as it is one of the very few dental events in KSA that is focusing on the future and new trends in technology that can help the dentists in their daily practice.

Dr. Ashhad Kazi
Professional Oral Health Regional
Manager, Oral B

The Makkah conference was an exceptional networking experience with the local dental community. Also the “YES” initiative started by the organizers is truly a visionary platform for dental students to be a part off. We will definitely be a part of the Makkah Conference in the year 2020 & beyond.

Mr. Khalid Bazuhair
Professional Relation Manager, Colgate

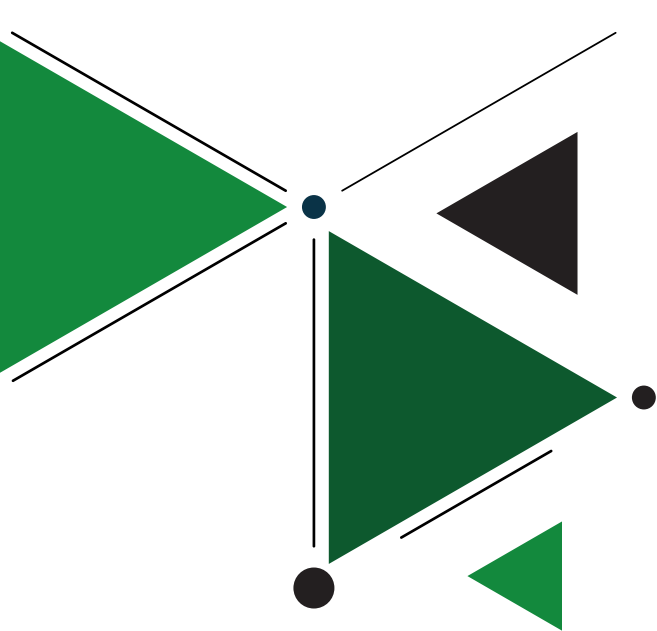

Visitors coming to our stand usually perfectly knew what they were interested in. Business meetings at the stand were short and efficient.

WHY YOU SHOULD JOIN ?

According to Forbes Middle East, Saudi Arabia has been emerging as a preferred destination for dental tourism in the world largely due to affordability of dental services when compared to other western countries. This has also helped in ameliorating the overall market size of dental market in the recent years. Also, according to US-based consultancy Aon Hewitt, the healthcare sector in KSA is expected to grow at a compound annual growth rate of 12.3% by 2020. Moreover, an increased attention towards the physical appearance has geared the demand for oral grooming treatments including tooth whitening, cleaning, reshaping, broken tooth, etc. These changing preferences of the customers have further helped push the revenues from dental services and they have only been improving over the years.

Don't miss the opportunity to exhibit at Makkah International Dental Conference & Exhibition 2022 There is a limited space available within the exhibition hall and stands will be allocated on a first-come-first-served basis.
